Debates and Proceedings
  Index.....................................................................................................................1

Appendices
  Oral Question Index.......................................................................................149
  Executive Council............................................................................................159
  Committee Chairs............................................................................................161
INTRODUCTION

The Hansard Index is designed to provide easy access to topics discussed in the Legislative Assembly. For this reason it corresponds strictly to the text of the Manitoba Hansard.

FORMAT

The index is in two sections: (1) Member/Subject index, and (2) Appendices.

Member/Subject Index: Main entry in this section is a subject heading which may be subdivided. Following the main entry are secondary headings, "see" and "see also" references, and a listing of individuals who spoke on that subject.

Appendices: Included in this section is a complete list of Oral Questions by department, Members of the Executive Council, and Chairpersons of Standing and Special Committees.

FILING ARRANGEMENT

The basic filing principle is alphabetical, letter by letter.

The sequence is as follows:

a) numbers are filed at the beginning of the alphabet, if they are the first character in the filing element

b) initials separated by punctuation are filed at the beginning of their alphabetic group

ABBREVIATIONS

1R First Reading
2R Second Reading
C/3R Concurrence and Third Reading
Amdt Amendment
C/W Committee of the Whole
(M) Motion
